LYXOR UCITS ETF FTSE Developed Europe ex-UK (DR) - C-GBP (the "Fund")

ISIN: FR0012034809 - A sub-fund of the investment company named MULTI-UNITS FRANCE (the "Company") domiciled in FRANCE.

Managed by Lyxor International Asset Management ("LIAM")

Objectives and investment policy

The investment objective is to track both the upward and downward evolution of the FTSE Developed Europe ex UK NTR Index (Bloomberg code: AWNT05UK) (the 'Benchmark Index'), denominated in pound sterling and representing shares of large- and mid-cap companies on European Developed markets, excluding the United Kingdom.

The anticipated ex-post tracking error under normal market conditions is 0.3%.

The Fund seeks to achieve its objective through direct replication, that is by investing in the securities composing the Benchmark Index. The Fund may decide to use a sampling technique for the purpose of limiting the costs associated with investing in the various components of the Benchmark Index. On an ancillary basis, the Fund may invest in financial futures, such as futures swap contracts traded over-the-counter, specifically for the purposes of hedging, or index or equity futures contracts listed on regulated markets.

An up-to-date breakdown of the Fund's investment portfolio is provided on the website www.lyxoretf.com. The indicative net asset value is also shown on the Fund's Reuters and Bloomberg pages, and may also be mentioned on the websites for markets where the Fund is listed.

The share currency is the pound sterling (GBP).

- **Financial instrument investments:** financial futures, European equities, UCITS, other financial instruments.
- **Recommended investment period:** this Fund may not be appropriate for investors who plan to withdraw their investment within a timeframe of less than 5 years.
- **Classification:** Equities from European Union countries.
- **Dividend policy:** The Fund reinvests its distributable amounts.
- **Net asset value:** on a daily basis, providing that the stock exchanges where it is listed are open for trading and orders can be covered.
- **Redemption:** Investors may redeem their shares on the primary market each valuation day before 15.30 CET and sell their units on the secondary market at any time during trading hours on the exchanges where the Fund is listed.

Risk and return profile

The risk category mentioned above is based on historical data and is not representative of future categorization. As a result, this risk estimation may not be a reliable indicator of future risk and may be subject to change over time. The lowest category does not mean risk free investment. Resulting from its exposure to the Benchmark Index, the Fund has been classified within category 6. Category 6 indicates that it is possible to suffer a severe loss of capital under normal market conditions; the value of your investment may change substantially and experience quite large daily upside or downside variations.

Material risks for the Fund not covered by the above indicator, which could lead to a decrease in the net asset value of the Fund, and which the Fund is authorised to disclose in this document (for more details about risks, please refer to the Risk Profile section of the prospectus): Not applicable

- **Counterparty risk:** The Fund is exposed to the risk of bankruptcy, or any other type of default of the counterparty related to any trading transaction entered into by the Fund. According to the UCITS regulations, this risk cannot exceed 10% of the total of the Fund's assets, for a given counterparty.

Fees

The fees that you pay are used to pay the costs of running the Fund, including the cost of marketing and distributing it. These fees reduce the potential growth of your investment.

For any additional information regarding charges, please refer to the relevant charges section of the Fund prospectus, available at www.lyxoretf.com.
